PROFESSIONAL EXPERIENCE

Google Developer Student Club, IIIT Bhopal | Assistant Web Developer Lead

September 2023 – Present

- Collaborated as a web Developer in a **team of 3** for the GDSC club, fostering knowledge-sharing and collaboration among **300+** members.
- Delivered **more than 5** web development sessions hosted by the GDSC Club, promoting a supportive learning atmosphere among peer developers.
- Deployed and implemented the official website of the **GDSC Club of IIIT Bhopal**.

ACADEMIC PROJECTS

QstarAI - AI Chat web app | JavaScript, CSS, OpenAI API, HTML

[DEMO](#) | [GITHUB](#)

- Crafted **AI chat platform** with 3+ components like **login/sign up** page & **input page** by integrating **OpenAI API**.
- Enhanced UX with 4+ features: **prompt editing**, **chat history storage**, **suggestion prompts**, and a new chat feature for a refreshed interface.
- Resolved key issues in state management, scalability, and **responsiveness**.

Mapify - Pin Locations on Map | JavaScript, CSS, Leaflet JavaScript library, HTML

[DEMO](#) | [GITHUB](#)

- Dispensed a 3rd-party platform enabling travelers to **pin locations on a map** for **3+ purposes** such as work, travel, etc.
- Incorporated **map alignment** with the user's **browser location**.
- Facilitated **easy revisiting & auto map focusing of 10+ saved locations** through purpose-specific list upon pinning.

CoinPulse - Crypto Tracker web app | React JS, Chart JS, JavaScript, Cryptocurrency API, CSS, HTML

[DEMO](#) | [GITHUB](#)

- Developed a hub for **cryptocurrency aficionados** dispensing information like **current price**, **market cap**, **rank**, etc of the top **100+ cryptocurrencies** by fetching a **cryptocurrency API**.
- Incorporated 3+ components like **table & individual Coin detail** page that displays the 100+ cryptocurrencies with the **market position**.
- Showcased change in price in the last 24 hours, 30 days, and 1 year by a **line chart**.

Checklist - Task Manager app | React JS, CSS, HTML, JavaScript

[DEMO](#) | [GITHUB](#)

- Built a platform for organizational enthusiasts that displays to-dos using **React JS** for efficient task management.
- **Displayed 3+ actions** including **task deletion**, **completion marking**, and **Up/Down** movement of to-dos.

ACHIEVEMENTS & CERTIFICATES

- **Ranked 8,455** in LeetCode Biweekly Coding Contest 113 among 26680 participants.
