## PROJECTS

**ExamPrep - Online exam platform web app |** React JS, Chart JS, React Router, JavaScript, CSS,          **DEMO | GITHUB**
- Delivered 5+ features like subject and difficulty level **customization**, real-time **progress tracking**, **bookmarking**, and direct **question navigation**.
- Implemented **auto-submission** upon time completion, generating reports with **doughnut** and **bar graphs** using the 3rd-party Chart.js library.
- Incorporated **text-to-speech** accessibility feature for reading questions aloud.

**QstarAI - AI Chat web app |** JavaScript, CSS, OpenAI API, HTML          **DEMO | GITHUB**
- Crafted AI chat platform with 3+ components like l**ogin/sign up page** & **input page** by integrating **OpenAI API**.
- Enhanced UX with 4+ features: **prompt editing**, **chat history storage**, **suggestion prompts**, and a **new chat interface**.

**Mapify - Pin Locations on Map web app |** JavaScript, CSS, Leaflet JavaScript library, HTML          **DEMO | GITHUB**
- Dispensed a 3rd-party platform enabling travelers to **pin locations on a map** for 3+ purposes such as work, travel, etc.
- Incorporated **map alignment** with the **user's browser location**.
- Facilitated **easy revisiting** and **auto map focusing** on 10+ saved locations through purpose-specific list upon pinning.

**Streamo - Video Content hub web app |** React JS, Rapid API, CSS, JavaScript, Material UI, React Router DOM.          **DEMO | GITHUB**
- Designed an entertainment platform that displays **video content** across **10+ categories**.
- Displayed 3+ features including **searching category-wise**, **video suggestions**, **content creator's profiles**, etc.

**TravelList - Travel essentials manager web app |** React JS, JavaScript, CSS          **DEMO | GITHUB**
- Built a platform for organizational enthusiasts that manages travel items using **React JS**.
- Added 4+ actions including **task deletion**, **completion marking**, **clear items**, and **sorting items** by dictionary order, packed status, and date added.

## ACHIEVEMENTS

- Achieved the **100 Days Badge 2024 and 2023** on **LeetCode**, ranking in the top **0.4% globally**.
- Ranked **4848**, **5095**, and **5805** in LeetCode weekly and biweekly Coding Contests, ranking in the top **18.98% globally.**
- Leetcode rating of **1628**.

## PROFESSIONAL CERTIFICATES

- JavaScript - Udemy
- UI UX - Great Learning
- C, C++, Data Structures and Algorithms - MySirG Academy

## TECHNICAL SKILLS

- **Web Dev Technologies:** React JS, Node JS, Express JS, MongoDB, JavaScript, HTML, CSS
- **Other Technologies:** MySQL, React Router, Redux, Tailwind CSS
- **Programming Languages:** C, C++, Python
- **Developer Tools:** Github, Git, Netlify, VSCode
